**In-class Participation:** Clickers are interactive student response systems that allow you to participate in demonstrations, find out whether you understand a particular concept or idea, and examine your preferences and opinions. Clickers also allow me to get a snapshot of whether most students in the class understand particular concepts, and which areas I need to spend more time on or go back over. So the clickers are useful in helping you to learn and in helping me to teach more effectively. Thus, it is important that you remember to bring your clicker with you to class each day, and you participate using your clicker throughout the class. You do not need to answer questions correctly in order for them to count toward clicker participation. You will be graded on your in-class participation beginning on *first lecture date for Clicker use*, so bring your clicker to class that day, out of its packaging and ready to be used. In order to receive credit for your clicker participation, you will need to register your clicker remote online by *Your choice of registration date (can be after the first usage date)*.
To register your Clicker so that you can earn participation and performance points in the class, log into D2L; Click *UA Tools*

Click the *Clickers* link:
Enter required information:

Enter Captcha challenge

Enter device ID (found on the back of the device) six alphanumeric-characters
Check Device ID

Click Final Submission

Final submission successful
IF YOU ARE FOUND USING MULTIPLE CLICKERS, YOUR CLICKER(S) WILL BE TAKEN AND ALL INVOLVED PARTIES WILL BE INELIGIBLE TO RECEIVE CLICKER POINTS FOR THE REST OF THE SEMESTER. ADDITIONALLY, YOU WOULD BE IN VIOLATION OF THE UNIVERSITY’S CODE OF ACADEMIC INTEGRITY AND THE INFRACTION WOULD BE HANDLED ACCORDING TO UNIVERSITY POLICY.
